Appendix System Status Description

Chapter 1 Preamble

Thank you for using the registration management system for overseas enterprises of imported food. In order to enable you to use this system proficiently as soon as possible, we provide you with this user manual.

You will find in this manual information on installation procedures, system configuration, basic operation, hardware and software use and safety precautions. Please read this manual carefully when installing and using the system for the first time as it will help you to get the most out of the system.

This manual is intended for users with basic computer knowledge. Here we assume that you are familiar with WINDOWS 7/10 and know how to use mouse and browsers such as Google Chrome, 360 etc.

Chapter 2 Instructions for Use

2.1 Portal

The system is browser-based and can be found at <u>https://cifer.singlewindow.cn</u>.

2.2 System environment

2.2.1 Operating system

Windows 7 or 10 (32-bit or 64-bit operating system). Windows XP is not recommendable.

2.2.2 Browser

Chrome 50 +

2.3 Input requirements

2.3.1 Input requirements

In the interface, required fields are marked with "*" while optional fields are not. The fields with gray background are not available. If a red alert pops up next to a field when

inputting, it means that the information currently entered does not meet the requirements and should be modified according to the alert. The blue buttons in the interface are function keys.

nd statement Attachment Information	
Registration number approved by located competent authority	Name of the registration approval competent authority
88	
Registration date (in China)	Registration expiration date (in China)
*Plant establishment time	*Enterprise name
*	bigC
*Address of manufacturing facility	
*Legal representative - contact number	*Legal representative - email address
	Registration number approved by located competent authority 88 Registration date (in China) *Plant establishment time * Address of manufacturing facility

(Basic enterprise information)

2.3.2 Keyboard operation

Some functions in the interface can be operated quickly by the keyboard.

Pressing the Tab key makes the text cursor automatically advance to the next field. Pressing the Up or Down Arrow key allows you to select from the parameters in the drop-down menu on the screen.

Pressing the Backspace key can delete the information currently entered in the field.

2.4 General functions

2.4.1 Switch tabs

If there are many open tabs, you can switch between tabs by clicking the interface icon or

2.4.2 Collapse or expand menu

Click the icon in the upper left corner of the right display area to collapse or expand the left menu . The folded left menu bar only displays icons, as shown in the following picture.

2.4.3 Close tabs

Click the icon in the upper right corner of the right display area to bring up the dropdown menu (as shown below). Select "Close all tabs" to close all open tabs in the current display area; If you click "Close other tabs", other open tabs will be closed except the tab currently displayed.

(Close tabs)

2.5 Enter or exit the system

Visit <u>https://cifer.singlewindow.cn</u>, enter the username and password to log in to the system and enter the main interface of the system. Click the icon = upper right corner to select the display language of the system.

	Not a Overseas Manufacturing Enterprise? <u>Click Here</u> .		

The system is available to overseas enterprise users and overseas competent authority users. You can safely exit the system by clicking on "Exit" in the upper right corner of the interface after entering the system.

Chapter 3 Introduction to the System

3.1 Users

The competent authority of the country/region (hereinafter referred to as "competent authority"): the official department responsible for the safety and sanitation supervision of food producers in the country/region where the overseas producers of imported food are located. The competent authority shall review and inspect the applications submitted by the local producers through the system, and recommend them to the General Administration of Customs of the People's Republic of China (hereinafter referred to as the "GACC"). The competent authority shall administer the registered recommended enterprises and cooperate with GACC to recheck and supervise the rectification of registered enterprises.

Overseas producers of imported food (hereinafter referred to as "producers"): overseas manufacturers, processors and storage facilities that export foods to China. Through the system, producers submit registration applications and rectification materials and receive notifications from GACC, etc.

3.2 Functions

China Import Food Enterprises Registration System aims to administer the registration of overseas producers of imported food, including applications for registration,

alteration, renewal, and cancellation of overseas producers, inquiries on applications, review and inspection of applications by the competent authority, and the management of registered producers.

The registration method of overseas producers of imported food includes recommendation for registration by the competent authorities of the countries or regions where they are located and application for registration by producer.

Overseas producers of the following product groups must be recommended by the competent authority of the country/region where they are located for registration with GACC: meat and meat products, sausage casings, aquatic products, dairy products, bird nests and bird nest products, bee products, eggs and egg products, edible oils and fats, oilseeds, stuffed wheaten products, edible grains, milled grain industry products and malt, fresh and dehydrated vegetables, dried beans, condiments, nuts and seeds, dried fruits, unroasted coffee and cocoa beans, foods for special dietary purposes, and health foods.

Overseas producers of foods other than those product groups listed above are required to register directly with GACC.

Chapter 4 User (Account) Management

Depending on whether the producer needs to be "recommended by the competent authority of the country/region where it is located", the account for foreign enterprise users to access the system can be obtained either through the assignment of the competent authority or the self-application of foreign enterprise.

The system account assigned by the competent authority can be registered as an overseas producer of any food category after logging in to the system.

The system account applied by an overseas producer can only be registered as an overseas producer of food products that do not fall into one of the 18 food categories.

Note:

• An overseas enterprise can only apply for one account.

• If the products of an overseas producer involve both "recommended registration" and "self-applied registration", it is recommended to contact the competent authority to get a system account instead of applying for a system account by itself.

4.1 System account assigned by foreign competent authority

Please contact the competent authority to get a system account.

4.2 System account applied by enterprise

Visit <u>https://cifer.singlewindow.cn</u>, click "Create an account" to enter the interface of creating account, and fill in the account information.

Overseas producers of the following product groups must be recommended by the competent authority of the country/region where they are located for registration with GACC: meat and meat products, sausage casings, aquatic products, dairy products, bird nests and bird nest products, bee products, eggs and egg products, edible oils and fats, oilseeds, stuffed wheaten products, edible grains, milled grain industry products and malt, fresh and dehydrated vegetables, dried beans, condiments, nuts and seeds, dried fruits, unroasted coffee and cocoa beans, foods for special dietary purposes, and health foods.

Overseas producers of foods other than those product groups listed above are required to register directly with GACC.

5.1.1.1 Introduction to the registration process (take plant-based stuffed wheaten product as an example)

Registration process:

(1) General approval process.

Enter information \rightarrow Preview \rightarrow Submit to the competent authority \rightarrow Recommended by the competent authority \rightarrow Approved by GACC (obtain Chinese food registration number).

(2) The process of return by the competent authority for supplementation and correction.

Enter information \rightarrow Preview \rightarrow Submit to the competent authority \rightarrow Requested by the competent authority to supplement and rectify \rightarrow Revise the application and resubmit to the competent authority \rightarrow Recommended by the competent authority \rightarrow Approved by GACC (obtain Chinese food registration number).

(3) The process of return (rejection) by the competent authority or GACC.

Enter information \rightarrow Preview \rightarrow Submit to the competent authority \rightarrow Rejected by the competent authority (the reasons for rejection can be found in the "General inquiries - application inquiry").

Note:

Applications that are not recommended by the competent authority may not be resubmitted with amendments to the original application form. However, it is permitted to submit a new application.

Main functions:

(1) Save: the basic information of the enterprise, production information, and information about self inspection and annexes which have been entered can be saved temporarily.

5.1.2 Registration applied by enterprise

Overseas producers of food products other than the 18 food categories recommended for registration by the competent authority of the country/region in which they are located apply for registration with GACC on their own.

After logging in to the system with overseas enterprise account, click on "Registration Application" in the menu on the left, and select the product(s) for which the enterprise can apply for registration with GACC. The following is an example of "Liquor - Distilled and Prepared Spirits".

5.1.2.1 Introduction to the registration process (Liquor - Distilled and Prepared Spirits)

Registration process:

(1) General approval process.

Enter information \rightarrow Preview \rightarrow Submit to GACC \rightarrow Approved by GACC (obtain Chinese registration number).

(2) The process of return by GACC for supplementation and correction.

Enter information \rightarrow Preview \rightarrow Submit to GACC \rightarrow Requested by GACC to supplement and rectify \rightarrow Revise the application and resubmit to GACC \rightarrow Approved by GACC (obtain Chinese registration number).

(3) The process of return (rejection) by GACC.

Enter information \rightarrow Preview \rightarrow Submit to GACC \rightarrow Rejected by GACC (the reasons for rejection can be found in "Customs feedback").

Note:

Applications that are rejected by GACC may not be resubmitted with amendments to the original application form. However, it is permitted to submit a new application.

Main functions:

Submission: the application data is submitted to GACC for review.

Other functions such as deletion and inquiry are basically the same as those on the application page for the competent authority to recommend the products for registration to GACC.

5.1.2.2 Instructions for input

Required fields are marked with "*" in the interface. The main fields are described below.

• Registration number approved by the competent authority of the country/region in which the producer is located: it is automatically filled in by the system according to the "Registration number in the country/region where the producer is located" entered by the user when creating the account.

• Name of the competent authority of the country/region approving registration: the name of the regulatory authority of the country/region that granted the registration number. Optional field.

• (Chinese) Registration number/ time of registration (in China)/ validity period of registration (in China): it cannot be filled in when entering, for it will be given by the Customs after the approval of the registration application. The number can be found through the function of the application form query.

• Enterprise name: it is a required field automatically filled in by the system based on the information of the user account. This field can be edited, but modification is not recommended.

• Product(s) to be registered or added: required. After clicking "Add", the interface of entry will pop up. Information of multiple products can be entered.

• Trade with China in the last 2 years: required. If you select "Yes", it is required to fill in; if you select "No", leave it blank. Select "Yes" to bring up the form of specific products exported to China. Click "Add" to bring up the input interface of trade with China in the last 2 years. The parameter options for "Specific products exported to China" come from the "Specific products to be exported to China" in the field of "Products to be registered or added".

• Export trade in the last 2 years (form): optional. Click "Add" and choose "Export Products". Click on the blank or the triangle icon on the right to get the parameters. The parameter options for "Specific products exported to China" come from the "Specific products to be exported to China" in the field of "Products to be registered or added".

5.2 General inquiries

5.2.1 Application forms

The system provides services for inquiring application forms. Overseas enterprise users can enter key words to inquire the applications they submitted, including application information, recommendations by the competent authority, and reviews by GACC.

For the applications that have been temporarily saved, or have not successfully submitted or completed the supplementation and correction, click "View" to enter the page of application details for editing.

Click "General inquiries-Application forms" on the left to expand the menu (as shown below).

Operating procedures:

(1) Set the searching conditions, click "Search", and the results will be listed below according to the searching conditions.

(2) Click "View" in the data operation column to open the application form for details. The application progress can be viewed in the upper right corner of this page. According to different status of the application form, there are the following circumstances:

• For applications that have been temporarily saved or are subject to supplementation and correction, the application forms can be edited, modified and declared.

• If the application of a product that the enterprise can apply to register with GACC by itself is in the state of "Failed to send to Customs" or "Failed to enter

Customs database", the application forms can be edited and modified, and redeclared (see the appendix at the end of this manual for detailed explanation). If the registration application of the product recommended by the competent authority to GACC is in the state of "Failed to send to Customs" or "Failed to enter Customs database", the application forms cannot be modified or declared.

Appendix System Status Description

Status	Description
Temporarily saved	The entered information is saved to the computer.
Submitted (to the competent authority)	The application has been submitted to the competent authority for review.
Submitted (to Customs)	 The competent authority has recommended the enterprise's application to GACC. The enterprise has submitted the application to GACC.
Recommendation rejected	The application is returned to the enterprise after being reviewed by GACC or the competent authority.
Sent to Customs successfully	System processing. Applications recommended by the competent authorities or submitted by enterprises have been successfully sent to GACC.
Failed to send to Customs	System processing. Applications recommended by the competent authorities or submitted by enterprises was not successfully sent to GACC due to network problem or other abnormalities.
Entered Customs database successfully	System processing. GACC received the data successfully.
Failed to enter Customs database	System processing. GACC failed to receive the data.
Accepted	The application has been accepted by GACC and will be reviewed.
Unaccepted	The application is returned because GACC doesn't accept and won't review it.
Supplementation and correction	 If the submitted application does not meet the requirements, GACC will return the application and request the enterprise or the competent authority to modify the application. The competent authority returns the application and requires the enterprise to modify the application.
Unapproved	GACC rejects the application recommended by the competent authority or submitted by the enterprise.

Approved	If the overseas producer of imported food meets the requirements, GACC shall approve the registration application and grant Chinese registration number to the producer.
Revoked	GACC revokes the registration in China of the registered enterprise.
Suspended	GACC suspends the export of food products by the registered enterprise to China, until the registration requirements are met after rectifications.
Rectification	If a registered overseas producer of imported food no longer conforms with the registration requirements, GACC shall request the producer to rectify within a specified period and shall suspend imports from the producer during this period. The producer shall complete the rectification within the specified period and submit to GACC a written report and a written statement confirming it conforms with the registration requirements.
