Fisheries Management Notice No. 34 of 2026

(June Under 55ft Boats Demersal Quota Management Notice)

I, Timmy Dooley, Minister of State at the Department of Agriculture, Food and the Marine, in exercise of the powers conferred on me by section 12 of the Sea-Fisheries and Maritime Jurisdiction Act 2006 (No. 8 of 2006) and the Agriculture, Food and the Marine (Delegation of Ministerial Functions) (No. 2) Order 2025 (S.I. No. 368 of 2025), hereby issue the following Notice:

1.1 This Notice is the June Demersal (boats under 55ft) Quota Management Notice 2026 (Fisheries Management Notice No. 34 of 2026).

1.2 This Notice comes into force on 01 June 2026 and ceases to have effect on 01 July 2026.

2 In this Notice:

“CECAF” means the Committee for the Eastern Central Atlantic Fisheries;

“ICES” means the International Council for the Exploration of the Sea;

“Union waters” means European Union waters. Where this term is used in conjunction with an ICES or CECAF sub-area or division specified in Schedule 1, Schedule 2, Schedule 3, Schedule 4 and Schedule 5, it means that only the European Union waters of that sub-area or division are included;

“length” means, in relation to a sea-fishing boat, the overall length of the boat, or the distance from the forepart of the stem of the boat to the aft side of the head of the sternpost of the boat or to the foreside of the rudder stock;

“fishing trip” means any voyage of a sea-fishing boat during which fishing activities are conducted that starts at the moment when the fishing boat leaves a port and ends on arrival in port;

“demersal authorisation” means an authorisation to fish for demersal stocks under section 13 of the Sea-Fisheries and Maritime Jurisdiction Act 2006. If a demersal authorisation has issued to an Irish sea-fishing boat, that Irish sea-fishing boat is only permitted to fish a species specified in column (1) of Schedule 1 of the demersal authorisation, from a fishing area specified in column (2) of Schedule 1 of the demersal authorisation, up to the catch limit specified in column (3) of Schedule 1 of the demersal authorisation. The catch limit(s) for that species/those species in that fishing area/those fishing areas set out in Schedule 2 of this Fisheries Management Notice are not available to that Irish sea-fishing boat during the fishing period;

“catch, retention and landing restrictions” mean the total quantity, in tonnes, of that species of fish in column (1), a quantity of which, greater than that specified in column (3) may not be landed by an Irish sea-fishing boat, dependant on the particular boat’s length and/or fishing method and/or whether the boat has been issued with a demersal authorisation for that species/those species of fish in that fishing area/those fishing areas during June 2026;

“fishing area” means waters falling within the ICES sub-areas and divisions specified in Schedule 1, Schedule 2, Schedule 3, Schedule 4 and Schedule 5 as defined in Annex III to Regulation (EC) No. 218/2009 of the European Parliament and of the Council of 11 March 2009, as amended;

“stock” means a species of fish in a defined fishing area specified in columns (1) and (2) of Schedule 1, Schedule 2, Schedule 3, Schedule 4 and Schedule 5;

“discards” means catches that are returned to the sea.

- 3.1 During June 2026, a person on board an Irish sea-fishing boat less than 55 feet in length, fishing in a fishing area specified in column (2) of Schedule 1, Schedule 2, Schedule 3, Schedule 4 and Schedule 5, shall not have, retain on board or land (or cause or permit another person to have or retain on board or land), a quantity of a species of fish specified in column (1) of Schedule 1, Schedule 2, Schedule 3, Schedule 4 and Schedule 5, from the fishing area specified in column (2) of Schedule 1, Schedule 2, Schedule 3,

Schedule 4 and Schedule 5, that is greater than the corresponding quantity specified in column (3), either on a single occasion or when combined with previous landings by that boat of that species of fish caught in the specified area in June 2026.

When the quantity of a species of fish specified in column (1) of Schedule 1, Schedule 2, Schedule 3, Schedule 4 and Schedule 5 that has been landed, from the fishing area specified in column (2) of Schedule 1, Schedule 2, Schedule 3, Schedule 4 and Schedule 5, exceeds column (3) of Schedule 1, Schedule 2, Schedule 3, Schedule 4 and Schedule 5, then the boat may not fish in that fishing area for that stock for the remainder of the fishing period.

3.2 Stocks relevant for Demersal Quota Balancing (Schedule 2)

During June 2026, a person on board an Irish sea-fishing boat less than 55 feet in length in respect of which a demersal authorisation has not been granted for that species of fish specified in column (1) for the fishing area specified in column (2) of Schedule 2, shall not have or retain on board that boat or land, (or cause or permit another person to have or retain on board the boat or land), a quantity of that species of fish specified in column (1) of Schedule 2 opposite that fishing area specified in column (2) where the fish were caught that is greater than the corresponding quantity specified in column (3) either on a single occasion or when combined with previous landings by that boat of that species of fish caught in the specified area in June 2026.

When the quantity of a species of fish specified in column (1) of Schedule 2 that has been landed, from the fishing area specified in column (2) of Schedule 2, exceeds column (3) of Schedule 2, then the boat may not fish in that fishing area for that stock for the remainder of the fishing period.

3.3 By-catch Limits (Schedule 3)

The catch limits specified in Schedule 3 are exclusively for by-catches. No directed fisheries are permitted under these catch limits.

During June 2026, a person on board an Irish sea-fishing boat less than 55 feet in length, fishing in a fishing area specified in column (2) of Schedule 3 shall not have, retain on board or land (or cause or permit another person to have or retain on board the boat or land), a quantity of a species of fish specified in column (1) of Schedule 3 from the fishing area specified in column (2) of Schedule 3, that is greater than the corresponding quantity specified in column (3), either on a single occasion or when combined with

previous landings by that boat of that species of fish caught in the specified area in June 2026.

When the quantity of a species of fish specified in column (1) of Schedule 3 that has been landed, from the fishing area specified in column (2) of Schedule 3, exceeds column (3) of Schedule 3, then the boat may not fish in that fishing area for that stock for the remainder of the fishing period.

3.4 Boats Fishing exclusively with Danish/Scottish Fly Seines (Schedule 4)

During June 2026, a person on board an Irish sea-fishing boat fishing exclusively by means of Danish/Scottish Fly Seines in ICES division 7a or ICES divisions 7b-k, sub areas 8, 9 and 10: Union waters of CECAF 34.1.1., shall not have or retain on board or land, a quantity of Haddock greater than the quantity that is specified in column (3) of Schedule 4, from the fishing area specified in column (2) of Schedule 4, either on a single occasion or when combined with previous landings by that boat of that species of fish caught in the specified area in June 2026.

When the quantity of a species of fish specified in column (1) of Schedule 4, that has been landed, from the fishing area specified in column (2) of Schedule 4, exceeds column (3) of Schedule 4, then the boat may not fish in that fishing area for that stock for the remainder of the fishing period.

3.5 Nephrops (Schedule 5)

Boats targeting Nephrops in ICES Areas 6 & 7 and Functional Unit 16 of ICES Subarea 7

During June 2026, in any one fishing trip, a person on board an Irish sea-fishing boat, targeting Nephrops in ICES Areas 6 and 7 may only fish in either of

- ICES Area 6 and ICES Area 7, excluding Functional Unit 16 of ICES Subarea 7, or
- Functional Unit 16 of ICES Subarea 7

When the quantity of a species of fish specified in column (1) of Schedule 5 that has been landed, from the fishing area specified in column (2) of Schedule 5, exceeds column (3) of Schedule 5, then the boat may not fish in that fishing area for that stock for the remainder of the fishing period.

EXPLANATORY NOTE

(This note is not part of the instrument and does not purport to be a legal interpretation)

This Notice sets restrictions on the catching, retaining on board or landing of various species of demersal fish during June 2026, in respect to boats less than 55ft in length. The catch limit/by-catch limit set out for any of the stocks set out in Schedule 2, which are the demersal stocks relevant for quota balancing, will only apply if a demersal authorisation has not been issued in respect of that stock for June 2026.
